The Physics Classroom serves students, teachers and classrooms by providing classroom-ready resources that utilize an easy-to-understand language that makes learning interactive and multi-dimensional. Written by teachers for teachers and students, The Physics Classroom provides a wealth of resources that meets the varied needs of both students and teachers. work

energy is added, but when you let go, the internal force of the rubber band contracts and moves the mass, so work

energy is removed from the system. Another example is the gravitational force. If you lift a mass upward against gravity, work

energy is added and when the mass is dropped, work

energy is removed from the mass-earth system.
