with his genius as a master storyteller at his best—the o. henry prize winner stephen king delivers a

generous collection of stories, several of them brand-new, featuring revelatory autobiographical comments

on when, why, and how he came to write (or rewrite) each story.

since his first collection, nightshift, published thirty-five years ago, stephen king has dazzled readers

with his genius as a writer of short fiction. in this new collection he assembles, for the first time, recent

stories that have never been published in a book. he introduces each with a passage about its origins or

his motivations for writing it.

there are thrilling connections between stories; themes of morality, the afterlife, guilt, what we would

do differently if we could see into the future or correct the mistakes of the past. "afterlife" is about a

man who died of colon cancer and keeps reliving the same life, repeating his mistakes over and over

again. several stories feature characters at the end of life, revisiting their crimes and misdemeanors.

other stories address what happens when someone discovers that he has supernatural powers—the

columnist who kills people by writing their obituaries in "obits;" the old judge in "the dune" who, as a boy,

canoed to a deserted island and saw names written in the sand, the names of people who then died in

freak accidents. in "morality," king looks at how a marriage and two lives fall apart after the wife and

husband enter into what seems, at first, a devil's pact they can win.

magnificent, eerie, utterly compelling, these stories comprise one of king's finest gifts to his constant

reader—"i made them especially for you," says king. "feel free to examine them, but please be careful.

the best of them have teeth." ...more get a copy

i've never thought of stephen king as a straight up horror author. he is more than that, he scares the crud out of me with his remarkable ability to look at humanity. he seems to be getting to (for me anyways) to a point in his life where he is debating life and what happens to us after..these stories seem to have that theme to some of them.

these stories are mostly stories that have at some time or another been published somewhere this book is a big old chunk...and so worth the price of admission.

i've never thought of stephen king as a straight up horror author. he is more than that, he scares the crud out of me with his remarkable ability to look at humanity. he seems to be getting to (for me anyways) to a point in his life where he is debating life and what happens to us after..these stories seem to have that theme to some of them.

these stories are mostly stories that have at some time or another been published somewhere else barring a few new ones that he slips in for our pleasure.

the best part of this book is not the stories for me though. it's the tidbits that king gives us before each story with a little bit of where the story came from that kept me flipping these pages.

i'm just going to barely touch on each story and add where they were published before. there are a lot of stories packed into this bad boy.

**mile 81** somewhat of a coming of age story..with a touch of unwordly. (previously published as an ebook) *jimmy golding hadn't believed in monster cars since he saw that movie christine as a kid, but he believed that sometimes monsters could lurk in cars.* \*4 stars\*

**premium harmony** a couple that has been married over ten years arguing over simple life happenings. i'll make sure to pick the pink ball instead. (published in a copy of the new yorker) \*3 stars\*

**batman and robin have an altercation** a son and his father who is suffering from dementia have an outing to a favorite restaurant. they really should come back there sometime. (harper's magazine) \*4 stars\*

**the dune** an elderly man makes another trip to a dune he discovered as a child that has a few secrets left to tell. (granta) \*3.5 stars\*

**bad little kid** this was one of my favorites in the book. that kid from sluggo/nancy? the mean boy with the propeller hat? he comes to vivid life for one man. (new) \*5 stars\*

**a death** i had already read/reviewed this one here (the new yorker) \*4 stars\*

**the bone church** i'm not even counting this one because i am not a fan of poetry..not even when it's by uncle stevie. (playboy) \*not rating\*

**morality** wow, just wow. a couple is struggling in a down turned economy. what would you consider sin? and what would you do to pull yourself up out of debt? (esquire) \*5 stars\*

**afterlife** what happens after we die? is there an afterlife? this one resounded with revival (tin house) \*3.5 stars\*

**ur** this was that e-book that king did when amazon first launched the kindle. fun as far as memories go, i just didn't fawn over it as much as i had hoped too. (e-book) \*3 stars\*

**herman wouk is still alive** a down on her luck single mom wins a small lottery win and decides on a road trip with her bestie. (the atlantic) \*4 stars\*

**under the weather** a sick wife and her husband's love for her. i can't say much about this one without giving anything away. (full dark, no skies-paperback) \*3.5 stars\*

**blockade billy** a farm boy shows up to serve as a temp catcher in the big leagues. he ends up being the catcher that can stop anything. i'm not even a big baseball fan and this one was one of my favorites in the book. (novella) \*5 stars\*

**mister yummy** another end of life tale as an elderly man in a nursing home tells his friend that he has been seeing mr. yummy. a gorgeous guy that he first saw back when being gay was a dirty little secret. (new) \*3.5 stars\*

**tommy** another poem (playboy) \*not rating\*

**the little green god of agony** a billionaire has been put to bed after a horrible plane crash. his nurse believes that if he tried to work through the pain after the accident that he would be healing faster. (a book of horrors) \*5 stars\*

**that bus is another world** a quick peep into a passing strangers world as the bus goes by. (esquire) \*3 stars\*

**obits** a nerdy writer for an internet magazine who writes "mean" obits after celebrities die discovers something unique about his column one day after getting angry at his boss. (new) \*5 stars\*

**drunken fireworks** a mother and son team of alcoholics take on the italian connected neighbors that live across the lake in a many year long battle of the fireworks. (audio book) \*4 stars\*

**summer thunder** a fitting story for the end of the book as the world ends in a nuclear future. (turn down the lights) \*3.5 stars\*

i think i've said before, i'm not usually a fan of short stories. there just is never enough to sink my heart and teeth into with them. i do make exceptions for a few authors and stephen king will always head that list.

any long time stephen king fan should be willing to admit that the man can shit the bed every once in awhile, and when he writes a real clunker of a novel then you're stuck with that bad taste in your mouth until the next, hopefully better, one comes out. the great thing about reading a bunch of short stories from uncle stevie is that even when there's a turd in the punch bowl you can just roll into the next one immediately and usually find something much better.

that's pretty much the case here in which the mixed bag of stories range from king at his wonky worst to some really strong character pieces on serious topics like aging, poverty, and morality. so while i might have been rolling my eyes at the ending of *mile 81* or the general goofiness of the villain in *bad little kid* the mood only lasted until i hit one of the better ones like *afterlife* or *herman wouk is still alive*.

a lot of the stories have echoes to other king works. *ur* has a link to *the dark tower* series as well as more than a passing resemblance to *11/22/63*. the evil car concept in *mile 81* is something else he's done before in *christine* and *trucks*, and there's a lot of *from a buick 8* in there. *obits* shares some dna with the *everything's eventual* short story, too.

but king has been doing this a long, long time so coming up with something totally new is like asking *the simpsons* to find a job that homer hasn't already held. mostly these are comforting echoes with enough upgrades and twists that you still feel like you're getting something new in the guise of the familiar.

overall, it's a solid collection, and there are as surprising number of stories with no supernatural elements. that may disappoint some king fans, but i found those to be the best ones. ...more flag 172 likes · like · see review view all 19 comments jan 14, 2021 megs\_bookrack rated it it was amazing shelves: stephen-king-read, 2021-mt-tbr-challenge, buzzword **\*\*4.5-stars rounded up\*\***

my favorite aspect of this book, however, was the short introductions, where king would give insight into his inspirations, or personal connections to each story.

those sections really helped to set the tone going into each one and for me, i think i took a lot more away because of that.

i highly recommend this collection, particularly if you are already a king fan and are familiar with his style and humor.

even if you are new to king, however, i think you will really enjoy this one. it's just a darn good time!

short stories normally suffer under this problem, the reason why hardly anyone reads them, because why invest time to get in a story when it's over before the flash kicks in? but with this collection, he ones again shows how it's done, how his intuitively jumping into stories without much planning in the writing process makes the characters feel so vivid and real. there might be some truth around the fact that this authenticity gets lost to a certain extent when plotting any move until perfection.

i'm close to having read anything he ever got published and how his short stories and novellas evolved is interesting. i already mentioned once that there are three periods of his work, the young king, the drugged king, and the elder, sober, wiser king. no just joking, he is the same horror master without any stupid attitude towards higher culture snob nobel prize garbage writing, just the best author of all times.

when he was young there was strong influence of the writers he mentions very often, so the works are more first half and middle of the 20th-century style than typical for the time they were published and they are more dealing with the greater horror, lovecraftian influence, and with passages similar to the epic writing of bradbury. when drugged, he wrote between ingenious and average, it's difficult to point the finger at the differences to the other periods, but it's no good advertisement for the anti-drug and abstinence movements that he wrote some of his greatest works (different seasons, misery) when he a was an alcoholic, totally multi substance permanent wasted, and both.

this book is the calm, perfect storytelling of a prodigy that has achieved anything possible in his subject, a celebration of creativity that shows that the smallest idea can be turned in a great story. it also shows that king, in the autumn of his life, is more and more dealing with death, ethics, afterlife, morality, what a good life is and topics he didn't put so much focus on in the past when he mostly wrote pure physical and psychological horror.

the stories may vary a bit in quality, logic, and consistency, but there is nothing i wouldn't call average ( i am biased as heck) and some are truly ingenious.

tropes show how literature is conceptualized and created and which mixture of elements makes works and genres unique:

overall impression: sk's characterizations are king. memorable, conflicted, and above all, deeply interesting. you know the old adage, "kill your darlings?" yeah. he's a master at it.

mile 81 -

truly gorgeous characters, especially the ones that died in horrible and grotesque ways. i sit in awe at sk's ability to evoke the feels and connect us to his people right before we wonder if they'll survive. i kinda expected a christine-ish story, but this was pretty near perfect as it was. awesome. kids rock.

premium harmony -

carver-like story with deep characterization, immediacy, and sudden death. quite beautiful.

batman and robin have an altercation-

well crafted story of road rage, but it didn't really grab me quite as much as the others. it was mostly nostalgia and a brief moment of terror.

the dune -

a bit magical, a bit odd. a bit forgettable.

bad little kid -

fascinating characters and creepy coincidences and a very cool build. smooth as silk. some kids don't rock.

a death -

an old-tyme lynching... or is it a murder mystery? kill-em kill-em anyway!

bone church -

a meh poem.

morality -

back to interesting characters and a rather hardcore fall from optimism to abject pessimism, including some rather memorable obsessions. it was like watching a train wreck. the ending also turned my stomach, but not for the usual horror-type reasons. it was an indictment of beliefs. odd and disturbing tale.

afterlife -

let's get away from this mortal coil, eh? nothing changes if you go back. all your same mistakes to do over and over... or you could choose utter oblivion. no one is sinless, and the best part is the... you guessed it... the characters. i actually liked the societal preachiness. :)

ur -

back to some cool horror and character development, featuring everyone's favorite pink kindle! fuck the one ring... this one's evil. :) and yet, i found myself looking up the new models of kindle and dreaming... and yeah, this story is a dark tower tie in. that part made it awesome.

herman wouk is still alive -

pretty classic king. fall in love with the characters only to be shown how ephemeral they are while simultaneously immortalizing them quite consciously.

under the weather -

damn uplifting story about someone who keeps things around well after their "best fresh date". it's both sad and creepy as hell, too, but mostly very optimistic.

blockade billy -

even as sk warns us that we don't have to like a particular pastime to enjoy a good story about it, i still don't care much for baseball yarns. or any sports, for that matter. still, i kept with it and by the end kinda wished i was given a "bad news bears" story with sk's twist from this little gem. uplifting, quirky, full of hope in the middle of despair, and in the end... the fat kid we had been rooting for all along actually wound-up being six-year-old michael myers. and have the movie be billed as something meant for kids, too. does that make me sick? muahaha

mister yummy -

this was an oddball. i know there's a lot of magical realism meets retirement home stories out there, and sk likes to corner the field, but running to back to flashback the 50's and eighties as a wild gay man rummaging about aids, who eventually winds up being one of the top 1% and an ultraconservative in this old age just tells me that way too many authors out there just aren't trying hard enough. rock on.

tommy -

nostalgia poem. 's ok. kinda had to be there.

that little green god of agony -

a story about pain management done sk style. a lot of old tropes done with style and nice twists. sk hasn't lost his talent. indeed, he's been sharpening his blades all along. now, let's get that sucker out!

the bus is another world -

kinda thought this would be a great fantasy title, but no, it was more of a story about tight distraction. do we all filter things that happen this much? "murder? oh well... i've got a very important meeting..." the thing is, the character is so interesting that i sympathize. what does that make me? (hint: that's likely the point.)

obits -

probably one of my most favorite stories in this collection. think death note, vol. 1: boredom with a rather less tight rule system attached to it. very creepy and rather effective. i'd probably give everything up and move to wyoming, too.

drunken fireworks -

was a plain short story without anything supernatural, but it was a fun drunken ride. hatfields and mccoys with fireworks. :) good \*somewhat clean\* fun.

summer thunder -

sf apocalypse, as only sk can do it. definitely a more concise tale than the stand, but this time with a nuclear option. i loved gandalf, and watching that progression really broke my heart. sk proves that it's only the close-up that matters. \*sigh\*

 in that vein, many readers tend to forget ten great  
 experiences with an author and fixate on a few bad  
 ones and proclaim, "that's it! i'm done with him!" if an  
 artist takes the james cameron route of creating  
 something new every five or six years, there are  
 fewer opportunities for fans to repudiate him. king  
 affords himself no such luxury. he keeps "cranking  
 them out," which means he receives all the  
 exasperation and faint praise associated with being  
 prolific.

--the notion that you're somehow "grandstanding,"  
 and that the author who gazes moodily into the

 is somehow more serious about his or her craft.

when you keep all this in mind, you begin to  
 understand that for an artist who cares, producing  
 work prolifically is actually a sign of great courage.  
 and—though this should go without saying—the  
 product of a stalwart work ethic. stephen king  
 refuses to coast on the reputation of his considerable  
 body of work, and what's more, he refuses to stop  
 growing.

if i had penny for every time i heard someone  
 swearing off stephen king because (insert title here  
 sucked), i'd have enough money to buy a  
 masterpiece like the bazaar of bad dreams.

and it is a masterpiece, friends.

you see, those who fell off the king fan wagon back  
 in '83 or '96 or '09 are probably perfectly happy  
 reading other authors, and i'm the last person to  
 condemn someone else's taste.

but in this author's humble opinion, those who've  
 forsaken or have not been reading king are missing  
 some of the best work of his career.

i don't know if king has ever been better at crafting  
 stories than he is now. for proof, just look at a few of  
 the delights included in these pages:

"ur," a surprisingly old-fashioned tale where you root  
 for the good guys and fear the hand of fate.

"bad little kid," a nasty little chiller that had me  
 avoiding windows in the fear i'd discover the sinister  
 child staring back at me.

"morality," a story that shook me with its casual  
 monstrousness and its eerie plausibility. i wish i  
 could forget it, but i can't.

"a death," which left me stunned and a bit abashed  
 because of the way i'd so thoroughly identified with  
 the protagonist lawman.

"summer thunder," one of the best apocalyptic tales  
 i've ever read, and certainly one of the saddest. my  
 god, i hope we never suffer a nuclear holocaust.

"cookie jar," a yarn that moved me to tears and  
 reminded me forcibly of my grandfather.

"batman and robin have an altercation," which  
 veered into territory i did not expect and featured a  
 perfect ending.

and "drunken fireworks," the sort of hilariously wild  
 throwdown only king could pull off.

for those of you still reading king--for you constant  
 readers--you've already experienced these stories or  
 you someday will. you know exactly what a gift  
 stephen king is.

for the rest of you? there are many authors in the  
 world, and i hope you find one who brings you the  
 same kind of happiness stephen king brings me.

long days and pleasant nights to you all. ...more flag

this is a bit of a slight tale, and probably wouldn't get  
 much attention if it weren't for the fact that king wrote  
 it. but it's only a ten-minute read, maybe, and it's an  
 online freebie. and it sucked me in: i kept reading  
 faster and faster, getting more and more worried  
 about where this was headed. the spare prose king

 average out to four stars, but i'm giving it one for the  
 cover. sue me.

mile 81 - yeah, no. this one dragged on too long by  
 at least two devourings. two stars, max.

premium harmony - ....not sure if i was meant to be  
 scared or horrified or grossed out by this. i do have  
 to say that i felt more for the dog than mary. does  
 that make me a bad person? three stars.

batman and robin have an altercation - this one was  
 great. extra love for the ending. five stars.

the dune - glimmers of *duma key*. liked but not loved.  
 characters not what i expect from king - too flat.  
 three stars.

bad little kid - i actually liked this one a lot. would've  
 liked a better explanation on the transfer of the bad  
 juju, but still. four stars.

a death - very dt vibe to this one, without the fantasy  
 aspect to the westernishness. (no, that is not a word.  
 i acknowledge that freely.) four stars.

the bone church - i hate narrative poetry. ew. this  
 could have been fantastic as prose. one star.

morality - riveting and with fascinating characters.  
 four stars.

afterlife - what a completely horrifying view of what  
 happens when we die. like a not funny but terrifying  
*groundhog day*. four stars.

ur - another appearance by my least favorite king  
 baddies. they sucked in *hearts in atlantis*, they  
 sucked in *the dark tower* series, and they suck here.  
 (view spoiler)[ and whoever heard of a king short  
 with a happy ending? was he on happy gas when he  
 wrote this? (hide spoiler)] two stars.

herman wouk is still alive - not a fan of this one  
 much. i think brenda and jasmine are caricatures of  
 clichés of drunken fat moms. shame on this story.  
 one star.

under the weather - omg the creep factor of this one.  
 undiminished by guessing the ending. five stars.

blockade billy - i don't care if this was about baseball.  
 it wasn't *just* about baseball, and i loved it. five stars.

mister yummy - weird, and not in a great way. three  
 stars.

tommy - ugh. shades of allen ginsberg. please, no.

one star.

the little green god of agony - very creepy and well characterized. "monster" a little weird, but did like the ending. four stars.

that bus is another world - sometimes neurotic mcs work, sometimes they don't. i didn't like this one very much. two stars.

robots - this one had a refreshingly original premise, and (despite warnings to the contrary) i thought the ending worked well. four stars.

drunken fireworks - meh. reminded me of *delores claiborne*, but with none of dc's compelling characterizations and horror. three stars.

summer thunder - cannot compete with *the stand*, obviously, since it's not 89879349871234098143 pages long, but a horrifying mini-apocalypse just the same. (view spoiler)[does sk have a dog named gandalf? or, more likely, *hate* a dog named gandalf? this is the second time he's killed off a dog with that moniker. see also *duma key*. (hide spoiler)] four stars.

tl;dr: read this for the high points, but expect some low ones, as must be with any short story collection. you'll enjoy some of them, at least, because there's something for everyone here. truly a bazaar.

mile 81 - 4 stars - i read this when it first came out by itself. unique and creepy - i like when king writes about monster cars. i didn't care for the resolution - too quick and convenient. but, still a good story

premium harmony - 2.5 stars - just a couple of hours in ray's life with some seriously unfortunate developments - nothing too exciting. not really a beginning, or a climax, or an end.

batman and robin have an altercation - 5 stars -fantastic little story - we get to know the characters fast and there is an unexpectedly touching (and gruesome) twist. and, i found the twist satisfying!

the dune - 4.5 stars - dark, twisted, mysterious - just when you think you know where the story is headed, king gives you a bit of a shock and a wink.

bad little kid - 4 stars - another creepy revenge story. in places, almost silly - but it wouldn't be silly if it was happening to you!"

a death - 3 stars i enjoyed the western theme, the writing, and the majority of the story. only three stars because the western stuff was so cool, but it just kind of ended blah and i wanted more

the bone church - 3 stars - a poem - some cool imagery and a dark, gruesome story. very quick read.

morality - 4 stars - partway through, i realized i had read this before. it is interesting to ponder what sort of darkness we have in side of us, what would it take to unleash it, and how far would we be willing to go?

afterlife - 5 stars - i really enjoyed this interpretation of what might be waiting for us when we die. i also like that it is another tough "what would you do?" situation (king likes to do those).

ur - 5 stars - this was a re-read for me. great story with a unique concept. i am reading this on a kindle - which seems appropriate. which author would you look for if you had the parallel universe kindle?

herman wouk is still alive - 3 stars - interesting idea for a story, but the narrative felt forced. it was like king knew what he wanted to say, but not quite how to say it.

under the weather - 4 stars - king mentions in the intro that you can kind of see where this one is headed the whole time, and that's true - but, it doesn't ruin the dark goodness of the story.

blockade billy - 5 stars - this was the second time i read this - i will have to go back and check what i gave it last time i read it, but it was 5 stars this time. i love a good baseball story and i love king's dark twist. also, the historical fiction aspect of it is nice.

mister yummy - 4 stars - king touches on the boundary between life and afterlife again. this one is very unique.

tommy - 4.5 stars - i thought this was a really cool little poem. makes you think about the fact that who we are when we die is who we are to the rest of the world forever.

the little green god of agony - 4 stars - bizarre and dark. lots left for the reader to conjecture. what is pain?

that bus is another world - 4 stars - a little existential journey about our encounters with others and how involved we would willing to be in other people's worlds. king is really hitting the "what would you do?" with this story collection.

robots - 5 stars - unique and creepy idea! also, king mentions the town i grew up in and the place where i learned to downhill ski - so bonus points!

drunken fireworks - 4.5 stars - a comedy, and i did lol a few times. it reminded me of my last two 4th of july's on a lake in rural indiana.

summer thunder – 3.5 stars – melancholy, hopeless, and nostalgic; a pretty decent (but certainly not uplifting) way to end the collection

i liked this one because the son goes and gets his dad each week to go out to eat, his dad is slowly losing his memory. they have a really nice time eating, but then something happens on the way back to the nursing home and it was just so cool what ole pops did when he knew his son was in trouble. and after all was said and done, pops just goes back to talking about something he remembers years ago :-)

**and last on my list**

i really wanted someone to end this bad little kid, but this little kid is not what he seems, like you didn't figure that out! what would you do if you have an evil little person following you all of your days....

i very much enjoyed the book, there were a few i didn't care for but most of them, even the little stories i thought were good because they were really a bad dream for that person dealing with it.

kudos, mr. king! :-)

which is why the fall from so high can be so hard for his readers. this collection of previously published works, in itself, had a range like open arms – from eye-roll-warranting clunkers that never took off and seemed rather (dare i say it?) juvenile for such a master wordsmith to others that truly took my breath away and really explored the mental and emotional crevices of humanity in a way that was breathtakingly clear and surprising – similar to reaching the summit of a huge roller coaster and seeing the landscape around you for those vivid two seconds before being dragged back down again. "blockade billy", "bad little kid" and "under the weather", i'm looking at you now.

overall, i will remember this collection as a hodgepodge that had some really great highlights – and those highlights are what i will take from it. the short introductions to each story were a real treat. those anecdotes and revelations were the extra seasoning that this collection needed to thread it all together. however, it would've been cool if the original place of publication had been added to those intro snippets; after all, we all knew that most of them were previously published anyway.

mile 81 –

this story was surprisingly and glaringly amateur. i appreciate that he led us into that with the knowledge that it was one of his earliest works, but it left an awful taste in my mouth and a hesitation to continue on with the collection. not the best choice for starting out; better to bury that one somewhere in the middle. no stars.

premium harmony –

deliciously dry and sardonic. the dialogue hit the nail on the head in that matter-of-fact sort of way that makes you laugh out loud, and the title – fittingly ironic indeed – tied the humor and storyline all together. great story! \*\*\*\* 4 stars

batman and robin have an altercation –

the father-son storyline warmed the heart, but there wasn't much else here. \* 1 star

the dune –

this story had a setting and cadence that really made the story, but this one would've been more compelling if it had showcased action scenes (which king definitely seems to have shied away from in this collection on a whole). at minimum, it would have carried more resonance if the narrator hadn't described the deaths in such a half-removed-from-the-situation fashion. nonetheless, the voice and pace were very steady and controlled, allowing me to trust both the author's hand and the narrator's voice. \*\*\*\* 4 stars

bad little kid –

awesome story! sinister, slow and, at times, somber, but never too much. it was a true king story for his avid readers, his hand for the disturbing on full display here. \*\*\*\*\* 5 stars

a death –

a great "period" piece mixed with a little "local color" – sorry king, i know you have "no use for that." this one was an excellent example of how dialogue and regional slang can really set the scene and shape a work! \*\*\*\* 4 stars

the bone church –

i'm all for contemporary poetry that doesn't follow the rules, but the two poetry selections presented here proved that i am not a fan of king's attempts at that particular form of art. disjointed and confusing, this one gets no stars.

morality –

this story was very well written, but anti-climactic for sure, particularly the ending. sure – it was a real-world sort of ending, but it didn't live up to the hype at all, and the "crime" that was so central to the story's theme was so minor, i couldn't believe all the hyperventilation they were doing over it! good story telling, but not much there to sink my teeth into. \*\* 2.5 stars

afterlife –

this story had a biting humor, juxtaposed by the two main characters' past interactions with women, that added a new and unexpected layer to this story. the 50s setting and various decades referenced as they discuss the mistakes of their past gave this one body and made it more memorable and 3-d. good story. \*\*\* 3.5 stars

ur –

ugh! this story was great for the sort of super bowl celebrity selling out that we expect to see in commercials, but this one seriously took away a lot of king's street cred! great for kindle/amazon propaganda, but an otherwise ridiculous attempt with a cop-out, oh-this-story-is-getting-to-be-way-to-long-so-let's-just-end-it-now sort of finale. definitely warranted more than a few eye rolls. one star for referencing the cool possibility of authors writing new and previously unexplored works in other dimensions, but that's about it. \* 1 star

herman wouk is still alive –

i loved the blunt and unornamented examination of life that this one provided. it was so real, in fact, that it was almost pure. this look at real life aimed for the authentic and came from a character's pov who was really examining it all for the first time. thought-provoking and funny, this one was a winner. the story would've really hit the mark if it hadn't been watered down by the elderly couple's pov. \*\*\*\* 4 stars

under the weather –

awesome story; definitely one of the best of the bunch! i felt a nod to "a rose for emily" in this one that i loved; it was macabre in a delectable way that resonated loudly at the end. it had all of the elements of a good short story and a king-worthy ending. the thread about the dream really tied this one together. \*\*\*\*\* easily 5 stars

blockade billy –

this one was another long one, but i truly did not mind it being long at all! the jargon here was thick as molasses, which i didn't always get, but it didn't take away from the story; in a lot of ways, it made the story. i felt like i was a part of their world, which is the whole reason that people read when they could just watch a movie. the ending was killer. really. killer. \*\*\*\*\* easily 5 stars

mr. yummy –

this one didn't live up to the intro that king wrote for it; it was neither about desire nor aids (for that matter), which made it a bit of a letdown. the irony and humor of the "grim reaper" aspect made the story unique, but this one seemed like a failed attempt overall because those topics were just mentioned in passing. not really explored as the intro seemed to promise. \*\*\* 3 stars

tommy –

no comment is comment enough. not a fan of uncle stevie's poetry in this collection.

the little green god of agony –

umm, not a winner for me. this was like r.l. stine's goosebumps on steroids (mild steroids that made it appropriate for an adult, not extreme steroids that made it king-like). enough said. \*\* 2 stars for the humor added by the nurse's thoughts and the dynamic between she and her boss.

that bus is another world –

good little short with a surprise ending. i'll tip a nod here to king for putting his characteristic examination of humanity into this one. \*\*\* 3 stars

obits –

didn't live up to the phenomenal story i thought i was getting (because of its length and premise highlighted on the jacket flap). you'd think that only the best stories would be highlighted there, but in my opinion, the opposite happened. this one also veered towards juvenile at times and the ending was...whhhhaaaaat?... a letdown for sure. \*\* 2.5 stars for the premise

drunken fireworks –

this one had absolutely nothing to do with horror or even the vaguely macabre. though king shared his distaste for the term, this one was definitely just an episode of "local color," which is likely why he felt the need to defend against that. \*\* 2 stars

summer thunder –

sure, what better way to end the collection than with the apocalypse, i agree. this, however, showed again how king didn't jump in to tackle the big action scenes but settled for examining the aftermath, or 3rd person removed version of them. other than that, it was a solid story, worthy of the king brand, with an ending that was foreshadowed but...comme si comme ça.

worth a read and it's a short, short-story.

one more stephen king book read. i have 5 more books left to read. these were a good group of short stories, many genres and subjects. there are some good supernatural stories in here and then some every day people going through drama and 2 poems king wrote.

some of the ones that stood out to me as my favorite were: mile 81 (best), bad little kid, afterlife, ur, under the weather, little green god of agony, obits, drunken fireworks and summer thunder. the others were good stories, and a few only okay stories. mile 81 was just what i needed from this collection and it starts the book off right.

all the blurbs and schribner are trying to sell this book as a horror book, but many of the stories are anything but. several of them are simply dramas with normal people. they sell king hard on being horror and thats great, but you get a bit of everything here. i thought it was perfect for spooky season. it wasn't too scary, but there was enough spine chilling going on to be enough for me now.

i think these collections will be good to go back and read only the stories that were good for me and leave the others to time. the good ones balance out the others. the ones i enjoyed most had the supernatural piece of the story.

things that i normally don't (short stories), but there's one thing that he didn't change, and that's my dislike of poetry. i ended up skipping "the bone church" entirely because i really don't like reading poetry, at all. ironic how i used to write a couple of them when i was younger, but these days i try my best to avoid it. i know plenty of people enjoy the genre, and that's good for you. it's just unfortunate that i can't seem to grasp the essence of poetry itself nowadays. i'm hoping this would change in the future though.

just like the last collection of short stories i've read, i'm not going to do an in depth review of every story. i'm just going to talk about the three stories that i enjoyed a lot, considering i gave this a 4-star rating.

*ur*

i know how used up this idea is to this date, but king can make anything feel new and entertaining. he added in a new element known as the revolution to ebooks. it's a topic that's been fought over a lot in the internet. there should be no clear winner considering it all boils down to personal preference. i myself love the real thing, but i don't hate my ipad especially when i read in public. it's way easier because my bag weighs a lot lighter with just my ipad mini rather than a heavy ass hardback. king incorporated a recent issue to a post-apocalyptic theme. it's not just the topic that made me enjoy this a lot, but also the characters. they did seem genuine about every emotion they exude. it's obviously not forced, and it's written the best way possible. the pacing is perfect, and the climax happens just at the right time.

*the dune*

the beauty of a collection of short stories is that you have no idea what each story is about. in the case of the dune, it was a terrific surprise for me. this is one of the many fast reads of this collection. i remember reading this around 1 am and even though i was already sleepy and needed to wake up in about 5 hours, i still finished this, and i was wide awake after reading it. it's a simple story but the execution is remarkable. it's one of those slap at the face ending, but it's a good slap. it's a slap for not seeing what happens in the end.

*afterlife*

this is also one of those stories that will be stuck with you for a very long time. it's an amazing concept of what could happen in the afterlife. i'm quite scared that stevie king is talking about the afterlife more nowadays, but it's fine. i'm just taking it in as added substance to this work. i want to go full on in depth reviewer over this, but it's a short story. the moment i go berserk mode on this, i will spoil you guys. just buy the damn book and read this, and comment below if you disagree about it being amazing. i would love to know why, because i see no flaw in this. one of king's best work to date.

*obits*

this is my favorite of all the stories here. it's everything that makes it amazing. the characters, the plot, the writing, the pacing, everything. the messed up characters makes this short story a lot better than it already is. the main character works as an obituary writer on an infamous website. he doesn't really enjoy what he does but he doesn't have much choice considering he studied journalism and doesn't seem to want to try the bigger online publishing sites. one day he decides to write an obituary of his coworker, who is still alive. he was pissed and tired from everything so out of a whim he decides to write one. what happens next brings nothing but catastrophe in his life.

that's all i can say about this without spoiling. it's an amazing piece of work by king, and i can't believe that this is just a short story. i wanted more after reading it, and quite frankly i still want more right now. this is the one that really stuck by me up to now. i know i won't find anything as good as this out there in the book world. it's caused a bit of a book hangover, but just a bit, considering it's just a short story.

the stories such as *mortality*, *premium harmony*, and *drunken fireworks* are also really amazing. i don't want to do a review of them anymore because where is the joy in the possibility of spoiling, plus i don't want to prolong a review that needs to be straight to the point to begin with.

i need to note the bad ones though, so beware of these rotten things:

- the bone church (i already mentioned why)
- blockade billy (this is the worst one in this collection)
- mister yummy

4.5/5 stars, rounded down because some of the stories are forgettable and i did hate three of them. the ones that i mentioned above and did the best "in depth" review of obviously received 5 stars and made me rethink the rounded down decision i made.

this is one of king's latest work, and this just proves that he is still amazing at what he does. all i can say is read the damn book already.

it's not that this collection is particularly poor or weak, it's just that king has set himself high standards with so many amazing short stories, i found it difficult to really appreciate this collection.

despite a preponderance of just "good" shorts, two really stood out for me, first "batman and robin have an altercation" a wonderful tale about a father, a son and alzheimer's! the second big-gun was "herman wouk is still alive" where an older couple witness a horrific accident... can i hear old-school king? so many of these stories were set on great concepts and read well, but the endings were often unfulfilling or predictable. i suppose i am a big fan of the final page pay-off for short stories which this certainly lacked. good book, but nothing special 7 out of 12.

i found this story a while back in the new yorker and i thought i would be a good occasion to find out what this much admired author is about. i did not have big expectations as i am not easily touched by short stories but i was engrossed by this one. he manages to build clear characters and tension in just a few pages. he succeeded to control my thoughts to make a certain opinion about the direction the story was going and then he slapped me with the ending.

the story convinced me to read one of his books. the only problem is that i do not know which one. the size of many of his books scare me and i do not want to choose the wrong one. any suggestion with what should i start is welcomed!!!

i could go story by story and give you my thoughts, but i'd rather just say that there are some good stories here. some stories that hit on relationships and death. a fun story about baseball that ultimately gets way outta control. man, i love baseball, too. isn't baseball the best sport there is? forget the nfl. sorry.

you get more cars destroying people, and there is seriously a story about a kindle and an alternate universe. boy, that one was way too long and way too ridiculous. in fact, many of these short stories felt longer than they needed to be.

another issue i had at times, and i've found in other books is that the villains always come across as way too over the top. for example, in mile 81, the first story, the way king tries to convince me that someone is the bad guy is having them throw out all kinds of disgusting insults that no one would ever really say in real life. it's like he has to use language and cartoon antics to develop the antagonist of the story. but, whatever.

king has some really awesome short stories and novellas out there, and a few are sprinkled into this collection. i don't think it's worth reading this from start to finish. pick out a few and steer clear of the rest. i'll keep you in suspense on what those few are.

in my opinion, this perfectly sums up the character development during this story. king didn't create characters you'd particularly care for, but he managed to write a thrilling story in an intriguing atmosphere, embedded in a question of morality about belief and faithlessness. "a death" was the first story by king i've read so far, although i bought "under the dome" a few days ago in the bookstore and couldn't resist to look into it (i should really start buying books only when i've finished the last one, because i *always* end up reading countless ones simultaneously), so that i wasn't unfamiliar with the writing style.

this short story can be read for free here and is not even 5000 words long, so ... read this interesting little story. it is worth it.

merged review:

stephen king's latest short story collection consists of twenty (more or less) original stories and novellas, once again proving that king's imagination has not yet ceased to create new horrifying and stunning scenarios which he is able to put so easily and fluently into words. however, there are quite a few reasons for why this collection generally rather disappointed me, even though king managed to hide some true gems in here.

i am going to talk about some of them in depth in the rest of this review (*without spoiling any plot elements*), but so long, as for my reading experience, i can only think of how this collection mildly disappointed and excited me at the same time - a feeling king seems to love to create with his very ambivalent stories. be sure to read this only if you are used to king's writing style, as i don't think the collection works for non-king readers.

#### 1) mile 81 (4/5 stars)

pete, an eleven-year-old boy, explores a closed gas station and becomes drunk for the first time in his life. julianne, a lesbian farmer caring for horses, drives up at the gas station and finds an old car - a car which hasn't been there when pete arrived minutes ago, with no driver in sight ...

this novella displays a strong introduction to the collection by combining king's more recent writing style with classic christine-like horror. for me, it was a case of being in the right mood to read this story, because any other day, it might have received only two stars or even one due to its hilarious ridiculousness. but, if you don't mind the ending - and it should have become obvious by now that if there is one thing stephen king cannot write well, then that's endings - this is a strong story about some interesting characters.

even though king stole one of his own ideas, i can forgive him for that, because this entertaining story made up for a funny hour of reading.

#### 2) premium harmony (3/5 stars)

a short and simple story which managed to stun me with the sadness it made me feel. available online in a copy of the new yorker here, and recommended for a short read - preferably in the hot summer, as that might add to the story's atmosphere. but don't expect it to be light-hearted ... it isn't. however, it was a very intriguing trip without any typical fantasy/horror elements.

#### 3) batman and robin have an altercation (4/5 stars)

this is the way horror could well happen in real life. and the realistic feeling attached to it totally freaked me out, because one day, there is a possibility of us becoming the parents of our parents - and isn't this prospect fear-inducing? don't be misled by the strange title; this is a very serious story about a man whose father is suffering from alzheimer's disease.

#### 4) the dune (4,5/5 stars)

i usually enjoy protagonists who could be our grandparents, and it was the same with this short story. featuring an astounding supernatural element and a surprise ending, this proves stephen king's writing talent perfectly. one of my favorites from the collection.

#### 5) bad little kid (5/5 stars)

reminiscent of the green mile and rita hayworth and shawshank redemption: a story from different seasons, this prison story focuses on george hallas, a murderer who is going to be convicted to death for killing a seven-year-old boy. he talks to his lawyer, leonard bradley, about his extraordinary story, and soon the tale drifts off into almost unbelievable tension.

my personal favorite out of the collection, and recommended whole-heartedly for every fan of a good horror story.

#### 6) a death (3,5/5 stars)

in this story, king didn't create characters you'd particularly care for, but he managed to write a thrilling story with an intriguing atmosphere, embedded in a question of morality about belief and faithlessness. "a death" was the first story by king i've ever read, and for me personally, it was a perfect introduction to his works. this short story can be read for free here and is not even 5000 words long, so ... read this interesting little story. it is worth it.

#### 7) the bone church (2/5 stars)

stephen king should stick with short stories. king as a poet? that's like pennywise as a nice guy. just doesn't work.

#### 8) morality (3/5 stars)

a young married couple's life is turned into complete turmoil when an aging man offers something unexpected. a story about questions of morality unfolded, and while i appreciated the dark undertone king used to deal with the serious topic, this insane story made me feel sick for hours after reading it. the thought that characters like these could be living just across your street is what makes this so horrifying.

#### 9) afterlife (4/5 stars)

after his death, a man encounters a possible scenario of the afterlife. shocking and thought-provoking - easily one of the better king stories.

#### 10) ur (3/5 stars)

originally published seven years ago as a kindle ebook, this novella deals with a university teacher reading in his kindle and soon figuring out that some aspects of his new purchase are not quite the way they should have been. in the beginning, i was intrigued by the very interesting premise, especially since king referred to a lot of well-known authors like hemingway and fitzgerald, but in the end, this drifted off into ridiculousness and left a lot of potential aside without having made use of it. i am mildly disappointed, yet it was definitely an enjoyable read - if you look for something entertaining.

#### 11) herman wouk is still alive (1/5 stars)

i simply didn't get the point of this story. the title is completely misleading, the characters are ... okay, let's better not talk about them; the story is as thin as a sodden piece of water; the writing is close to the worst as it ever got with king. definitely a story to be forgotten soon.

#### 12) under the weather (3/5 stars)

again, i felt like something else could have been added to the story to give it more layers. this story is about a man and his ill wife, but it is impossible to add anything else without spoiling the ending. king says himself in the introduction that the ending is easy to be predicted, and it was. the build-up of the tension was nicely done, yet also unsatisfying in the end.

#### 13) blockade billy (1/5 stars)

i am no fan of baseball, and that pretty much sealed the deal for me with this story. there was nothing behind those words which was able to grab me. the baseball jargon doesn't interest me at all, the story was simply consisting of some random plot elements, and the characters were untypically uninteresting, considering how characters are usually king's strength. not recommended.

#### 14) mister yummy (3/5 stars)

nothing extraordinary. a gay man in a retirement home reminisces his difficult life of dealing with his sexuality and talks to a friend about his experiences. easy to forget again.

#### 15) tommy

again: please, mr. king, i know those poems are only experiments, but if you ever managed to fail at one awfully, it is in these poems.

#### 16) the green god of agony (3/5 stars)

typical king horror mixed with interesting characterism and autobiographical experiences results in a disturbing tale which feels so far from being believable that it almost feels real again. the sixth-richest man of the world survives a plane crash in a similar way as king survived his car accident, and despite his nurse's warnings, he now tries to exorcise his pain - with horrible consequences. interesting story, but not my favorite and difficult to get into.

#### 17) that bus is another world (3/5 stars)

a story surrounding the question of what should i do when i suddenly witness a crime? what are my priorities? well-done, but also a story which relies mostly on atmosphere and will be forgotten after only a few days.

#### 18) obits (4,5/5 stars)

one of my favorite king stories, this deals with a reporter and his way to deal with a supernatural power which enables him to kill people with grave consequences. this is stephen king at his best.

#### 19) drunken fireworks (2/5 stars)

an entertaining story about the feud of two families, but the entertainment rather lies in its ridiculousness.

#### 20) summer thunder (3,5/5 stars)

an apocalyptic short story recommended to fans of the stand. very well-written and memorable.

in the end, this collection very much feels like another hit-or-miss gathering of stories, some of which were great, some of them annoying, most rather unconvincing, yet interesting. the most interesting part about this consists of king's introductions he wrote for each and every single one of the short stories, offering a lot of insight into his usual writing process and autobiographical pieces of information. ...more flag 52 likes · like · see review view all 17 comments apr 29, 2015 brandon rated it really liked it shelves: uncle-stevie, fiction, short-story-collections, 2015 lately i'd been going through a bit of a reading slump. i picked up and put down a number of novels before deciding on king's latest short story collection, the bazaar of bad dreams. while i skipped uncle stevie's most recent release, "finder's keepers" - i wasn't big on its predecessor mr. mercedes - i trusted in king to snap me out of my funk. luckily, my trust was not misplaced.
